## CAREER SUMMARY

I am an aspiring Software Engineer with experience in JavaScript, TypeScript, React, and Python. I'm passionate about building scalable web applications and writing clean, maintainable code. I thrive in collaborative environments and embrace a growth mindset to continuously improve my technical skills.

## SKILLS

**Professional Skills:** Project Management, Problem-Solving, Teamwork, Conflict Resolution, Time Management.

**Technical Skills:** JavaScript, HTML, CSS, React, Python, jQuery, SQL, PostgreSQL, Node.js, Tailwind CSS, AWS, Git, GitHub, NPM, Chrome Developer Tools, Visual Studio Code, IntelliJ, Figma.

**Languages:** Bilingual in English and Spanish.

## EDUCATION & TRAINING

### SEATTLE CENTRAL COLLEGE / YEARUP

Seattle, WA

**Certificate** - Software Development and Testing – **Current GPA: 4.0**

Anticipated Completion: **Aug 2025**

- Year Up is an intensive career development program with college-level courses and professional training.
- Coursework focused on software development and testing, with hands-on experience in coding, debugging, and QA.

### TRIPLETEN

Remote

**Certificate** - Software Engineering

Anticipated Completion: **May 2025**

- Intensive bootcamp covering full-stack development, including HTML, CSS, JavaScript, React, Node.js and databases.

### UNIVERSIDAD RAFAEL BELLOSO CHACIN

Maracaibo, Venezuela

**Bachelor's Degree** - Electrical Engineering

Aug 2017

- Completed coursework in circuits, electronics, systems analysis and programming.

## PROJECTS

### Around The U.S – Social Media-Style Web App

- Developed a social media-style platform where users personalize profiles by adding and liking travel images.
- Built with JavaScript, HTML, CSS, and API integration, following OOP principles for maintainability.
- Implemented responsive design, modal pop-ups, and seamless image handling to enhance user experience.

### Discord Bot with Weather and EC2 Info

- Developed a Python-based Discord bot for interactions, jokes, weather info, and EC2 server metadata.
- Built with Python, Discord API, OpenWeather API, AWS EC2.
- Hosted on an AWS EC2 instance, fetching and displaying server metadata such as IP address, region, and availability zone.

## PROFESSIONAL EXPERIENCE

### SOUTHWEST AIRLINES

Denver, CO

#### Ramp Agent

Mar 2022 - Present

- Lead loading and unloading of 150+ bags per flight in roles like lead ramp agent and driver, ensuring timely delivery to final destinations.
- Collaborate with 1,000+ ramp agents to achieve 95%+ on-time departures for airline at Denver International Airport.
- Provide top-tier service by safely handling oversized baggage and special cargo, supporting Southwest's 4.5-star satisfaction rating.

### MISTER O1

Miami, FL

#### Restaurant Supervisor

Aug 2019 - Aug 2021

- Led 30+ staff in a fast-paced restaurant, fostering collaboration that boosted team performance and morale.
- Managed operations for a high-volume restaurant serving 700+ guests daily, generating \$50,000+ in weekly sales and maintaining a 4.9-star Google rating from 3,000+ reviews.
- Organized private events for up to 50 guests, handling logistics and vendor coordination, driving event bookings and repeat business.
